

Application Procedure of Using Protective Equipment

Players who require the use of protective equipment such as face masks or sports spectacles during a football match, should seek approval from the HKSSF. Application must be submitted by school at least 14 days prior to the match. To apply, please follow the application procedure below:

1. Players in the need of using protective equipment should submit applications to their schools with medical certificate issued by Registered Medical Specialists/Optomestrist. Such protective equipment should be safe and cause no harm to the player himself/herself and other participants and officials during competition.
2. After inspected by school, school should apply with a written application together with medical certificate and the protective equipment to be submitted to the HKSSF.
3. The HKSSF will invite the Referee Committee of Hong Kong Football Association to examine the protective equipment.
4. Should approval is granted by all parties, the HKSSF will issue an approval letter with the picture of the protective equipment to school. Unsuccessful applicants will also be notified by letter.
5. Team managers are required to show the approval letter and protective equipment to the referee before the match.
6. To ensure the protective equipment causes no harm to all participants, it must be inspected and verified by the referee on the spot. The final decision is subject to his/her approval.
7. The referee shall immediately ban the use of such equipment if it becomes harmful to any participants during the match or being used inappropriately.
