

Inter-School Athletics Championships 2011/2012

Division One
Seating Allocation

1. The Division One Athletics Championships is one of the most exciting Inter-School sports competition. In the past, there have been large number of spectators attending the Finals and therefore seating allocation has been introduced for better crowd control on the spectators' stand.
2. For the safety and comfort of spectators and competitors, a better control on seating is required. The Management Committee considered that competitors from all schools participating in the Championships should be given priority in seating allocation. Other vacant seats could then be allocated to those schools who wish to send spectators to watch the race.
3. Therefore, participating schools are kindly requested to forward to the Federation office the number of competitors as well as number of spectators attending the Championships. Since the seating space is very limited (3,000 maximum), it is regretted that any request of more than 250 spectators will not be entertained. Please fax the following slip to the Federation office (2761 9808) **on or before Wednesday, 18th January 2012.**
4. The Management Committee wishes to remind participating schools that sufficient number of teachers must be present at the Sports Ground to supervise their spectators.
